

NEW EDGES AND HINDRANCES

When drawing action cards, your hero draws one less, so that you need a success just to draw one card.

EDGES

ACE IN THE HOLE 5

It seems that just when everyone thought you were done shootin', you have more lead to give. Your new max cards are equal to 6 instead of 5.

QUICK ON THE DRAW 5

Your hombre moves like grease lightning and is able to get a move on when it really counts. Whenever you draw action cards, you get an additional card. However, you are still limited the max of 5 cards (you can draw more but discard down to 5 and keep black jokers) and you still draw no cards on a botch.

HINDRANCES

LUCKY TO FIND HIS ARSE 5

You may be quick to the fight but, you have trouble getting done what needs to be done in time. Whenever action cards are drawn you can have a max of 4 at a time.

SLOWER THAN A FROZEN TURTLE 5

Your hero never seems to be able to get it into gear. When the fight breaks out you're often standing there slack jawed with your feet stuck to the ground.
